LastName2, FirstName2 (contact email)

Abstract.

Summarize the motivation and main concepts of your project (1/2 page).

1 Status Report

Structure this report as you like. Make sure you answer the following questions:

- What progress did you make?

- What is the current state of your concept?

- What problems occurred?

- How did you solve them?

- What are your open issues?

2 Updated Roadmap

Update your roadmap. Make sure to include reached milestones and mark changes to the original roadmap – it always makes sense to visualize the timeline.

3 Artifacts

Present the artifacts you have created for your project so far. These could for example be:

- Screenshots and explanations of you UI

- Protocol drafts

- The software architecture

- Flow diagrams
